

Cyclone breaks the drought

Paul 'Cyclone' Solomon picked up a well-deserved win Saturday night for RD3 of the Mainline DynoLog Dynamometers All Star Series at Heartland Raceway. He locked in the Oval Express Magazine Quick Time Award with a 15.392 and took out a Heat win rounding out the night for him. "It's been several years since Pauly has taken out an All Star feature so to see him on the podium again was pretty cool." Promoter Searle tells us.

Solomon lined up on the front row alongside V65 Kane Newcombe, V78 Chris Campbell, ACT68 Jessica Moulden, ACT26 Tony Moule and SA76 Cris Solomon were on the next couple of rows and made a race of it for him but couldn't make a pass on Solomon. Leading the A flag to flag an expression session of donuts completed his night.

SA69 Cody Atkins had a huge drive after dropping his Time Trial with mechanical issues and relegating him to rear of the heats for the night. As a result of this Atkins was forced to start at the back of B Main. Locking into the A and starting out of P18 he was elbows up for the 30 laps and worked his way through to 5th. V34 Brenten Farrer started from mid pack in the A and was on the move throughout the race finishing second which the Frijtek team were happy with. ACT26 Tony Moule's 3rd place was also rewarding for the team after straightening the chassis during the week as a result of damage at Swan Hill. V40 Rusty Hickman struggled spinning in T3 in the A bringing on the yellows and starting from the rear. The youngster was disappointed with his night but gained more valuable experience. Track conditions played a part in the A for many teams with the slick track bringing some undone. Tire wear was significant at the end of the race.
